

Noto

A note-taking app from
developers for developers.

Tech Stack

Result

Completed Features

- CRUD for notes
- Syntax Highlighting
- Tags
- Sort by tags
- Searching
- Style notes
- User Authentication (WIP)
- Testing (WIP)
- Deployment

Differences and changes

Changes

- Full page view vs Modals for viewing notes

Features for future updates

- Grouping
- Sharing
- Image Uploading

Challenges

- Lack of experience with React
- State management
- Implementing features took longer than expected
- Implementing Auth too late
- New features = new bugs
- Broken codebase

Demo!
